The tables below summarise the Bank's exposure to interest rate risks. Included in the tables are the Bank's assets and liabilities at carrying amounts, categorised by the earlier of contractual repricing or maturity dates. As interest rates and yield curves change over time the Bank may be exposed to a loss in earnings due to the effects of interest rates on the structure of the balance sheet. Sensitivity to interest rates arises from mismatches in the repricing dates, cash flows and other characteristics of the assets and their corresponding liability funding.

B Market risk

Market risk is the potential change in value caused by movement in market rates or prices. The contractual amounts stated above provide only a measure of involvement in these types of transactions and do not represent the amount subject to market risk. Exposure to market risk may be reduced through offsetting on and off-balance sheet positions. The market risk numbers as at end of the financial third quarter are reflected in Note 32 on Capital Adequacy.

C Credit risk

Credit risk arises from the possibility that a counter-party may be unable to meet the terms of a contract in which the Bank has a gain position. The credit risk numbers as at end of the financial third quarter are reflected in Note 32 on Capital Adequacy. The credit risk amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rate or prices.

D Liquidity risk

Liquidity risk is the risk that the Bank is unable to meet its cash flow obligations as they fall due, such as upon the maturity of deposits and loan draw downs. Exposure to liquidity risk is reduced through constant monitoring of liquidity risk profile with maturity mismatch reports.

To the best of our knowledge, the accompanying Statement of Financial Position of Bank of America Malaysia Berhad as at 30 September 2016, and the related Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and explanatory notes for the financial third quarter ended on that date had been prepared from the Bank's accounting and other records and nothing has come to our attention that causes us to believe that the condensed interim financial statements are not presented fairly in all material aspects in accordance with the Malaysian Accounting Standards Board ("MASB") approved accounting standards in Malaysia for entities other than private entities and Bank Negara Malaysia Guidelines.

For and on behalf of,
