### How it works

The Executive Explorer Airport Fast Track statement credit gives cardholders the flexibility to use their card for fees relating to expedited clearance at airports and other ports of entry where accepted.

Cardholders must follow the respective travel program's application process. The application approval or denial of such program will not alter decisions on statement credits.

All qualifying transactions are automatically processed and cardholders will receive a statement credit for the transaction amount, up to \$100USD<sup>5</sup> every four years from the first qualified transaction. Statement credits will be posted to the account within four weeks.
