		Single Dealer Platform	

BofA Securities (BofA) has in place connectivity to the Regulation NMS market centers with protected quotes. We are connected to a select group of crossing networks, which we evaluate on a continuous basis to seek the best performance for our clients.

How each market is accessed varies based on the strategy or client instruction.

We are equipped to stop routing specific orders to a venue upon a client's request except when legal, regulatory or policy requirements prevent such action.

* BofA directed routing via 3rd Party Broker Dealer

US Equities Market Execution Venues

BofA Securities' Smart Order Router accesses a number of SEC-registered ATSS, which may change from time to time.

The table below is a representation of various attributes* specific to that ATS**. Actual interactions may vary by strategy and by client.

Venue	MPID	MIC	Market Data	Conditional Support	Price Improvement Opportunity	MinQty Support	No Aggregation for MinQty	Order Types	Time In Force	Peg Types	Odd Lot Support	Segmentation Filtering Available	Execution Priority	MinQty Requirements

Disclaimer

BofA Securities Instinct X®

BofA Securities (“BofA Securities”) operates Instinct X®, an Alternative Trading System (“ATS”) in the US and in other geographies. BofA Securities seeks to operate its ATSs in accordance with applicable regulations, and in accordance with reasonable expectations of fairness. However, potential execution counterparties in BofA Securities’ ATSs and in external venues may have trading objectives and/or expectations that may be adverse to your own, and so execution outcomes may vary. BofA Securities makes no guarantee as to the performance that can be achieved through the use of its ATSs. BofA Securities’ ATSs operate on a Price/Capacity/Time priority, with any BofA Securities principal capacity orders yielding to client orders at an equal price.

Within its own ATSs, BofA Securities may offer a variety of crossing services that support a segmentation and/or tiering model to enhance Client choice regarding the nature of potential counterparties with whom they may execute. Where it does so, BofA Securities will use reasonable efforts to adhere to your expressed preferences regarding the use of different crossing services, to assign Clients to the appropriate segment and to maintain those assignments, and to adhere to your expressed preferences regarding interaction with participants in such segments. While BofA Securities will use reasonable efforts in this context, it makes no guarantee as to accuracy or consistency of the composition of any segmentation assignment, which may be based in part on BofA Securities’ understanding of information supplied by others.

BofA Securities Routing and Order Handling

In the absence of instructions to the contrary, or depending upon your expressed preferences, the particular BofA Securities routing strategy or algorithm that you may elect to employ, or that is employed on your behalf, and as part of BofA Securities’ services seeking the most efficient and effective experience for Client orders, your orders may be given an opportunity to interact with any resident non-displayed orders in one of BofA Securities’ own ATSs, which may include BofA Securities principal trading interest, prior to being exposed to external venues. External venues may include but not be limited to public exchange markets, multi-lateral trading facilities, other ATSs, or broker dealers, (such routing appropriate to each BofA Securities region) consistent with your instructions or BofA Securities’ routing logic as applicable. While BofA Securities maintains relationships and connectivity to a variety of such venues as part of its routing processes, BofA Securities does not represent that it has access to all such venues that potentially may be available at any given point in time. To the extent that this document references performance times, such information is indicative and attempts to illustrate the performance speed and latency generally associated with certain systems, order/message paths, and linkages. Actual performance may be different and, in some cases, materially slower than indicated.

Additional Disclaimers and Information

This document is provided to you solely for informational purposes by BofA Securities and is designed to serve as a general summary of the trading services and products that BofA Securities may offer from time-to-time.
