		=======	=======

For Branch level, we adopted the internal risk rating and observed the provisioning guidelines issued by Hong Kong Monetary Authority ("HKMA") to assess the collective impairment allowance for loans and advances. Individual allowances are made against individual loans and advances as and when the management have doubts on the ultimate recoverability of principal or interest in full. Both individual and collective assessment allowances are deducted from "Trade Bills", "Advances to customers and receivables" and "Commitments and contingent liabilities" in the balance sheet.

VI. INTERNATIONAL CLAIMS (Continued)

The information of international claims discloses exposures to foreign counterparties on which the ultimate risk lies, and is derived according to the location of the counterparties after taking into account any transfer of risk. In general, transfer of risk from one country to another is recognised if the claim against counterparties is guaranteed by another party in a different country or if the claim is on an overseas branch of a bank whose head office is located in a different country. A country or geographical area should generally be reported where it constitutes 10% or more of the aggregated international claims.

Claims arising between head office, branches and subsidiaries are excluded.
