

# SMARTER. CLEANER. STRONGER: THE FIRST PHILIPPINE POLYMER BANKNOTE SERIES

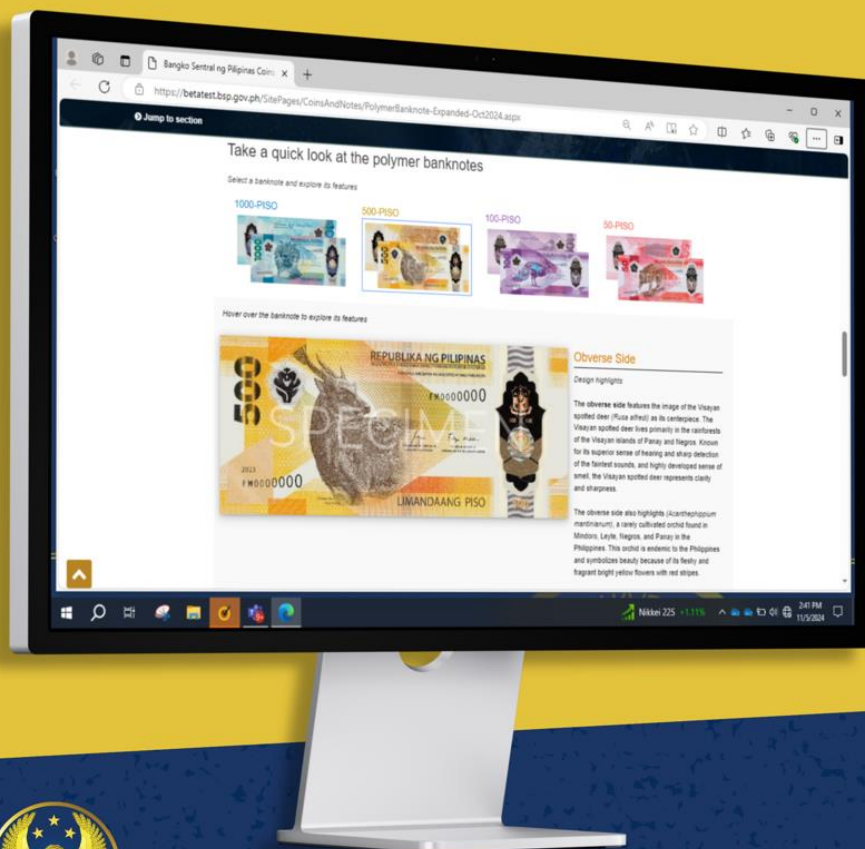

The Bangko Sentral ng Pilipinas is proud to present the First Philippine Polymer (FPP) Banknote Series. Available in four denominations, the FPP Banknote Series showcases smarter, cleaner, and stronger features than their paper counterpart.

**Sampaguita**  
*Jasminum sambac*

**Philippine eagle**  
*Pithecophaga jefferyi*

The 1000-piso polymer banknote features not one but two of the country's symbols—the Philippine eagle and the sampaguita. It also shows on the reverse side the Tubbataha Reefs Natural Park and native South Sea pearl.

The 1000-piso polymer banknote is part of the First Philippine Polymer (FPP) Banknote Series, which will circulate alongside the existing paper banknotes.

*Acanthephippium  
mantinianum*

**Visayan spotted deer**  
*Rusa alfredi*

The 500-piso polymer banknote also features a pair of endemic and threatened flora and fauna in the Philippines—the Visayan spotted deer and *Acanthephippium mantinianum*. It also shows on the reverse side the Puerto Princesa Subterranean River National Park and the native and critically endangered blue-naped parrot.

The 500-piso polymer banknote is part of the First Philippine Polymer (FPP) Banknote Series, which will circulate alongside the existing paper banknotes.

# SMARTER. CLEANER. STRONGER: THE FIRST PHILIPPINE POLYMER BANKNOTE SERIES

*Ceratocentron  
fessellii*

**Palawan peacock-pheasant**  
*Polyplectron napoleonis*

The 100-piso polymer banknote highlights the majestic Palawan peacock-pheasant together with *Ceratocentron fessellii*—an endemic and critically endangered orchid in the Philippines. It also shows on the reverse side the Mayon volcano and the native and endangered whale shark or butanding.

The 100-piso polymer banknote is part of the First Philippine Polymer (FPP) Banknote Series, which will circulate alongside the existing paper banknotes.

**Vidal's lanutan**  
*Hibiscus campylosiphon*

**Visayan leopard cat**  
*Prionailurus bengalensis rabori*

The 50-piso polymer banknote showcases another endemic and threatened flora and fauna in the Philippines—the Visayan leopard cat and Vidal's lanutan. It also shows on the reverse side the Taal Lake and the native maliputo fish.

The 50-piso polymer banknote is part of the First Philippine Polymer (FPP) Banknote Series, which will circulate alongside the existing paper banknotes.
