1. Summary of the primary business

Our Company is India's largest asset management company ("AMC") by quarterly average mutual fund assets under management ("QAAUM"), with a mutual fund QAAUM of ₹12,509.98 billion and a market share of 15.3% as of March 31, 2026 (*Source: CRISIL Report, paragraph 1, page 209 of the Red Herring Prospectus*).

a. Business Overview - Products and Services

Our Company functions as the investment manager to SBI Mutual Fund and its core businesses include managing mutual funds (including Specialised Investment Funds), providing Portfolio Management Services, managing Alternative Investment Funds, and providing advisory services to offshore clients.

b. Industries Served and Typical Customers

Our Company operates within India's professionally managed investment management industry. We serve a large unique investor base of 18.00 million as of March 31, 2026 in our mutual fund business comprising individuals as well as institutional customers. As of the same date, our individual investor (comprising retail and high net worth individuals ("HNI")) mutual fund MAAUM stood at ₹5,818.20 billion, representing 47.89% of our total mutual fund MAAUM. The PMS and AIF businesses primarily target institutional investors.

c. Segment Reporting and Revenue Contribution

Our Company is engaged in the business of providing asset management services to SBI Mutual Fund and portfolio management and advisory services to clients. There are no separate reportable segments. For further details, please see "Restated Financial Information – Note: 37 – Segment reporting" on page 367 of the Red Herring Prospectus.

d. Key Geographies

Our Company has a pan-India presence with 277 branch offices across states and union territories, as of March 31, 2026. Internationally, our Company manages India-focused mandates, UCITS funds and advisory mandates, and operates via subsidiaries including a Mauritius entity and a GIFT City fund management subsidiary.

e. Revenue Concentration Among Top 5 Customers

Not Applicable.

f. Key Facilities

Our Company's key facilities include its Registered Office and Corporate Office in Mumbai, along with its pan-India network of 277 branch offices operating on leased or licensed terms, and a representative office in Dubai.

g. Business Strengths and Strategies

Strengths

Our Company is India's largest AMC by mutual fund QAAUM (15.3% market share) as of March 31, 2026, with the lowest operating expense ratio among the top 10 AMCs (0.08% of QAAUM for Fiscal 2026) (*Source: CRISIL Report, paragraph 1, page 222 of the Red Herring Prospectus*), backed by research coverage of 400+ listed companies and 200+ fixed income issuers. Our Company is also India's largest PMS manager (39.7% market share) as of March 31, 2026 (*Source: CRISIL Report, paragraph 1, page 205 of the Red Herring Prospectus*) and one of India's largest SIF platforms (28.2% market share of the SIF segment) as of March 31, 2026 (*Source: CRISIL Report, paragraph 3, page 181 of the Red Herring Prospectus*), with a market-leading SIP franchise of 16.21 million live SIPs (15.5% market share by count (*Source: CRISIL Report, paragraph 1, page 176 of the Red Herring Prospectus*); 15.87 million SIPs active for 37+ months). Our unique dual parentage combines SBI's wide domestic distribution franchise and brand with Amundi's global asset management expertise and international distribution reach.

Strategies

Our Company's strategies include deepening retail penetration in underserved beyond top 30 cities by leveraging its wide distribution network. It intends to strengthen digital capabilities through enhanced investor engagement and operational productivity initiatives. It also aims to capture international opportunities through its structurally advantaged global positioning, leveraging Amundi's distribution network for inbound global flows and SBI's presence for outbound diversification through GIFT City.

For further and complete information, see "*Our Business*" beginning on page 226 of the Red Herring Prospectus.

2. Summary of the Industry (*Source: CRISIL Report*)

India's professionally managed investment management industry is primarily driven by three segments: mutual funds, Portfolio Management Services ("PMS"), and Alternative Investment Funds ("AIFs").

The Indian mutual fund industry has witnessed significant growth, with industry quarterly average AUM increasing at a ~20.5% CAGR from Fiscal 2021 to Fiscal 2026, reflecting deepening financial penetration and growing retail investor participation across India. The mutual fund segment is served by approximately 40–45 AMCs and spans a wide range of scheme categories including active equity, passive/index funds, debt, hybrid and solution-oriented products, catering to both retail and institutional investors across varied risk profiles and investment horizons.

The PMS segment provides customized investment solutions, i.e., discretionary, non-discretionary, and advisory, primarily targeting high net worth Individuals seeking tailored portfolio management outside the standardized mutual fund framework.

The AIF segment pools capital from sophisticated investors under three regulatory categories: Category I (infrastructure, venture capital, social venture), Category II (private equity, debt funds), and Category III (complex trading strategies) and has seen increasing adoption as investors seek differentiated return profiles.

Key structural growth drivers for the industry include increasing financialization of household savings, rising digital penetration enabling investor onboarding in smaller cities and towns, supportive regulatory frameworks promoting investor protection, and the continued expansion of distribution infrastructure. India's mutual fund penetration relative to GDP remains well below developed market benchmarks, underscoring the long-term growth potential of the sector.

For further information, see "*Industry Overview*" beginning on page 140 of the Red Herring Prospectus.

Net cash generated from / (used in) financing activities	(54,577.94)	(10,430.48)	(1,316.23)

Notes:

The ratios have been computed as follows:

1. Net worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.
2. EBITDA stands for earnings before interest, tax, depreciation and amortisation is calculated as profit before tax plus finance cost, depreciation and amortization expense.
3. Basic EPS is calculated by dividing restated profit for the year and adjustments available for equity shareholders by weighted average number of Equity Shares outstanding during the year. Basic EPS disclosed above is after considering the 1,526,495,460 bonus Equity Shares of ₹ 1 each (fully paid up) allotted by our Company on December 19, 2025, in the proportion of three bonus Equity Shares for every one fully paid up Equity Share to eligible shareholders whose names appeared in the register of members / statement of beneficial owner as on December 18, 2025, being the record date fixed for this purpose, based on the approval of the Shareholders at the extra-ordinary general meeting held on December 9, 2025. Bonus shares are retrospectively considered for the computation of EPS in accordance with Ind AS 33 for all years presented.
4. Diluted EPS is calculated by dividing the restated profit attributable to equity holders of our Company by the weighted average number of Equity Shares outstanding at the end of the year plus the weighted average number of Equity Shares that would be issued on conversion of all the dilutive potential equity shares into Equity Shares per Ind AS 33 Earnings per share. Diluted EPS disclosed above is after considering the 1,526,495,460 bonus Equity Shares of ₹ 1 each (fully paid up) allotted by our Company on December 19, 2025, in the proportion of three bonus Equity Shares for every one fully paid up Equity Share to eligible shareholders whose names appeared in the register of members / statement of beneficial owner as on December 18, 2025, being the record date fixed for this purpose, based on the approval of the Shareholders at the extra-ordinary general meeting held on December 9, 2025 for all years presented in accordance with Ind AS 33 Earnings per share.
5. Net Asset value per equity share is calculated by dividing restated net worth at the end of the year by number of equity shares outstanding at the end of the year. The Net Asset Value per equity share disclosed above is after considering the 1,526,495,460 bonus Equity Shares of ₹ 1 each (fully paid up) allotted by our Company on December 19, 2025, in the proportion of three bonus Equity Shares for every one fully paid up Equity Share to eligible shareholders whose names appeared in the register of members / statement of beneficial owner as on December 18, 2025, being the record date fixed for this purpose, based on the approval of the Shareholders at the extra-ordinary general meeting held on December 9, 2025 and are retrospectively considered for computation of net asset value per equity share for all years presented.
6. Total Borrowings is nil as per Restated Financial Information.

For further details, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, “Basis for Offer Price” and “Restated Financial Information” beginning on pages 394, 121 and 342 of the Red Herring Prospectus, respectively.

Notes:

- Total QAAUM is defined as the average of daily closing AUM of Mutual Fund and offshore schemes and average of monthly closing AUM of PMS and Advisory and AIF for the latest quarter of the relevant Financial Year.
- Total MF QAAUM is defined as the quarterly average of daily closing assets under management across all mutual fund schemes managed by our Company during the latest quarter of the relevant Financial Year including SIF and excluding domestic FoF.
- QAAUM - Equity oriented is defined as the daily average AUM of equity and equity oriented schemes managed by our Company, for the latest quarter of the relevant Financial Year, comprising equity schemes, hybrid schemes (excluding conservative hybrid), fund of fund investing overseas (investing primarily in equity/equity related securities), solution oriented schemes (investing primarily in equity/equity related securities) and SIF.
- QAAUM - Fixed Income is defined as the average of daily closing AUM of debt oriented including solution-oriented scheme (investing primarily in debt) and conservative hybrid fund managed by our Company for the latest quarter of the relevant Financial Year.
- QAAUM - Liquid is defined as the average of daily closing AUM of liquid and overnight mutual fund schemes managed by our Company for the latest quarter of the relevant Financial Year.
- QAAUM - Passives is defined as the average of daily closing AUM of passive mutual fund schemes such as index fund schemes, gold ETF schemes, other ETF schemes and fund of funds investing overseas in passive funds managed by our Company for the latest quarter of the relevant Financial Year.
- Active MF QAAUM is defined as the average of daily closing AUM of actively managed mutual fund schemes (all schemes excluding passive schemes as mentioned above) during latest quarter of the relevant Financial Year.
- MF MAAUM - Investor wise (Individual) is defined as the average of the daily closing AUM attributable to individual investors (retail investors and HNI) during the last month of the relevant Financial Year.
- MF MAAUM - Investor wise (Corporates & Others) is defined as the average of the daily closing AUM attributable to corporate & others

(corporates, banks, financial institutions (FIs)/foreign institutional investors (FIIs) /foreign portfolio investors (FPIs)) during the last month of the relevant Financial Year.

10. MF MAAUM - T30 is defined as the average of the daily closing AUM sourced from investors in Top30 (T30) locations, based on AMFI mandated PIN code tagging during the last month of the relevant Financial Year.
11. MF MAAUM - B30 is defined as the average of the daily closing AUM sourced from investors in Beyond30 (B30) locations, based on AMFI mandated PIN code tagging during the last month of the relevant Financial Year.
12. PMS & Advisory QAAUM is defined as the average of closing AUM of our Company's PMS mandates and non-discretionary advisory mandates for each month during the latest quarter of the relevant Financial Year.
13. AIF QAAUM is defined as the average of the closing AUM of Alternative Investment Funds (AIFs) managed by our Company for each month during the latest quarter of the relevant Financial Year.
14. MF SIP (Triggered Monthly Flow) (AUM) is defined as the total amount successfully debited ("**triggered**") through SIPs in all Mutual Fund schemes during the last month of the relevant Financial Year.
15. MF SIP (Triggered Monthly Transactions) (Nos) is defined as the number of SIP instalments triggered and successfully processed during the last month of the relevant Financial Year across all Mutual Fund schemes.

8. Risk Factors

The following are the top 10 internal risk factors as disclosed in the Red Herring Prospectus:

1. **QAAUM-linked Revenue Dependency:** Our revenues and profitability are directly linked to our quarterly average assets under management ("**QAAUM**"); management fees constituted 96.47% of our revenue from operations of ₹43,894.88 million for Fiscal 2026, and our total QAAUM stood at ₹29,461.05 billion as at March 31, 2026. Any material decline or changes in the composition of our QAAUM due to market movements, redemptions, or other factors could significantly impact our financial performance, given that a significant portion of our operating expenses are relatively fixed in the short to medium term.
2. **Adverse Capital Market Conditions and Liquidity Risk:** Adverse capital market conditions and downturns could reduce our AUM and management fee / TER income. Our business is further exposed to liquidity risks due to such downturns which in turn could have a spiral/compounding effect on both our equity and debt/money market schemes through higher redemptions and lower SIP inflows. Our debt schemes maintained an average of 30.37% of AUM in liquid assets as at March 31, 2026 against an applicable regulatory minimum of 11.63% for applicable schemes, which can accelerate AUM declines and may have a material adverse effect on our business, financial condition, results of operations and cash flows.
3. **Scheme Concentration Risk:** A portion of our mutual fund QAAUM and revenue from mutual fund operations is concentrated in a limited number of schemes; as at March 31, 2026, our top 5 schemes by mutual fund QAAUM accounted for 42.57% of our total mutual fund QAAUM, and our top 10 schemes by mutual fund QAAUM accounted for 59.47% of our mutual fund QAAUM. Any adverse developments affecting these concentrated schemes could have a direct and disproportionate impact on our revenues and overall financial performance.

4. **Strict Regulatory Requirements and Prudential Norms:** We are subject to extensive regulation by SEBI and other regulatory authorities; SEBI conducts periodic inspections of our operations, and as at the date of the Red Herring Prospectus, the SEBI inspection for Fiscal 2026 has not yet been initiated, meaning its outcome and any resulting observations remain uncertain. Changes in regulations, failure to comply with regulatory requirements, non-compliance with SEBI's observations made during inspections, or adverse outcomes from SEBI inspections, including potential penalties, enhanced supervision, or suspension of registration could adversely affect our business.
5. **SEBI and Regulatory Authority Risk:** We are subject to strict regulatory requirements and prudential norms; in the last three years, we have received letters from SEBI in the ordinary course resulting in regulatory observations including administrative warnings and deficiencies across areas such as NAV dissemination, asset allocation limits, and reporting obligations, and a voluntary settlement application of ₹0.30 million filed by SBI Investment Opportunities Fund (IFSC), managed by our subsidiary SBI Funds International (IFSC) Limited is currently pending before SEBI. Our failure to comply with such laws, regulations and norms, including the SEBI (Mutual Funds) Regulations, 2026 and guidelines thereunder, may have an adverse effect on our reputation, registration, business, financial condition, results of operations and cash flows.
6. **B-30 Cities Redemption Volatility Risk:** 22.82%, 23.04%, and 21.64% of our mutual fund MAAUM as at March 31, 2026, March 31, 2025, and March 31, 2024, respectively were sourced from B-30 cities, representing ₹2,772.77 billion of MAAUM as at March 31, 2026. B-30 investors tend to be relatively newer to mutual fund investing and may exhibit higher redemption volatility during market downturns compared to T-30 cities; additionally, any adverse change to the regulatory framework providing additional TER allowances for B-30 mobilisation could further adversely affect our AUM, revenues and results of operations.
7. **Jan Nivesh SIP Discontinuance Risk:** Our Jan Nivesh SIP product, launched in February 2025 with a minimum daily investment of ₹250 and targeted at first-time and low-ticket investors, may experience higher discontinuance rates. As at March 31, 2026, we had 16.21 million live SIPs with an active SIP book value of ₹41.27 billion. Any material deterioration in SIP persistency driven by the Jan Nivesh SIP profile could adversely affect our SIP persistency metrics, recurring inflows and AUM.
8. **Fee Compression Risk - BER Framework and Passive Mix:** Changes to the regulatory framework governing mutual fund fees and expenses, including the introduction of the Base Expense Ratio framework and reduction in TER caps under the SEBI (Mutual Funds) Regulations, 2026 effective April 1, 2026, directly reduce our management fee and TER income. Additionally, passive schemes represented ₹4,055.26 billion or 32.42% of our total MF QAAUM of ₹12,509.98 billion as at March 31, 2026, and carry significantly lower management fees than actively managed schemes.
9. **Passive Investment Products Growth Risk:** We face risks relating to the growth of passive investment products, which typically have lower fees and could impact our actively managed QAAUM and reduce our profitability. Passive QAAUM grew from ₹3,182.01 billion in Fiscal 2024 to ₹3,416.86 billion in Fiscal 2025 and to ₹4,055.26 billion in Fiscal 2026, representing 32.42% of our total MF QAAUM of ₹12,509.98 billion as at March 31, 2026. Any sustained shift towards passive products could materially reduce our profitability.
10. **Dividend Sustainability Risk:** We have declared dividends in the past, including at significantly higher levels in Fiscal 2026; net cash used in financing activities was ₹54,577.94 million in Fiscal 2026 compared to ₹10,430.48 million in Fiscal 2025, with the increase primarily reflecting higher dividend payouts, resulting in our net worth declining from ₹82,975.33 million at March 31, 2025 to ₹59,630.62 million at March 31, 2026 notwithstanding profit after tax of ₹30,673.76 million for Fiscal 2026. There can be no assurance regarding our ability to pay dividends in the future or to maintain dividend payouts at similar levels.

For further details of the risks applicable to us, see “*Risk Factors*” beginning on page 24 of the Red Herring Prospectus. Investors are advised to read the risk factors carefully before making an investment decision in the Offer.
